

RASSEL MANIA

THE IDEA

Since 2015 Rasselmania is a new location in Hildesheim.

Following the initial favourable experiences gathered in the exhibition sector, our search for a location for further events was successful: Hildesheim Nordstadt, Bischofskamp 18. The project is being established and has found a home on the premises of the former steel trading company Göttgens. From 2015 on, Rasselmania will be a new location in Hildesheim.

The hall and exterior exude a unique charm and offer the perfect background to cultivate the three major topics of our project: Art, Culture and Dialog. After all, Rasselmania is a combination of those three sectors. The rooms are marvellously suited for a wide range of use, with art always being the main focus. The ideas for its use vary from exhibitions to live acts, concerts and lectures all the way to workshops and open air events. A major focus will be on the field of photography.

Rasselmania is also offers a forum for cultural exchange, challenges and promotes artists, conveys art and regularly invites art lovers to interesting events. Rasselmania is a hub for meeting personalities from the art scene: Artists, collectors, curators and many others. All this in a casual but very exclusive setting, where everyone interested in art is always welcome.

It is a venue for new ideas and those extraordinary projects that do not always fit into a standard pattern.

THE LOCATION

A space of art, expression, installation, culture and dialog

The hall is also excellently suited as rentable space for private or business events. This could be anything from parties, pop up shops, exhibitions, auctions or any other imaginable event - including from the commercial sector - that fits the overall concept. Rasselmania stands for niveau!

All classic suppliers needed for events of all kinds are included in the network of Rasselmania. Catering, lighting, safety, stage equipment and sound are all guaranteed to be taken care of by these professional partners.

The association Rasselmania and the commitment of its members are the foundation of this project. The goal and purpose of the association is to have fun, work with interesting people and to make a mark on the cultural scene. Fair and stress-free treatment, goal-oriented work and a good blend of experiences are the key components of our cause.

We are not a gallery. Not are we a museum. Not just a room.

We are **RASSELMANIA**.
